A Practical Guide to Starting Your
Social Work Journey in Canada

Overview

Who should apply for the assessment?

You should apply if you are an internationally trained social worker seeking to become a registered social worker in Canada (excluding the provinces of British Columbia and Quebec).

The CASW assessment is typically required as part of the application process for provincial social work regulatory bodies and it evaluates your education against Canadian standards.

This document is a step-by-step guide with all the information necessary to apply for the CASW assessment. Reading this before starting the application process will help you better understand all the requirements.

Part One

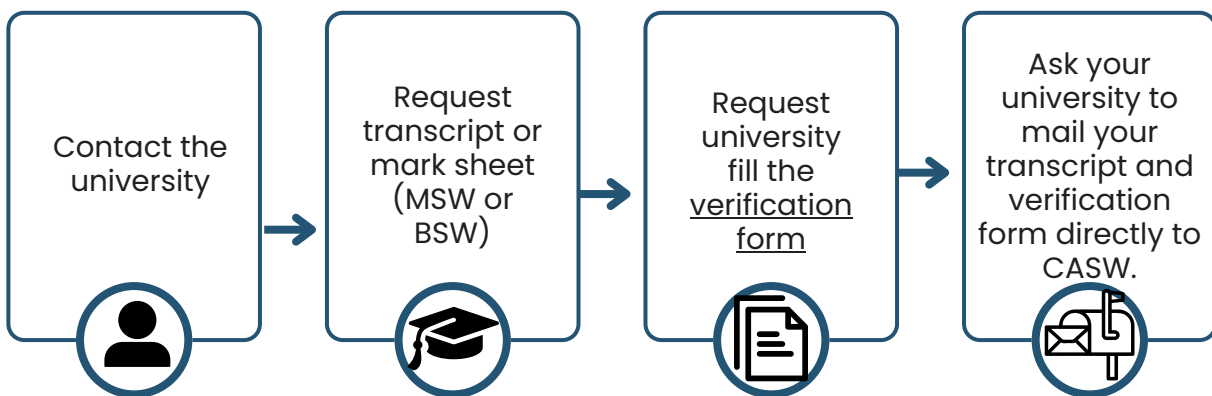

Section Overview

In this part, you will need support from the educational institution you attended. The primary objective is to send your **transcript** (BSW or MSW) and the **verification form** to CASW. These documents will be the basis of your assessment.

What you need to do:

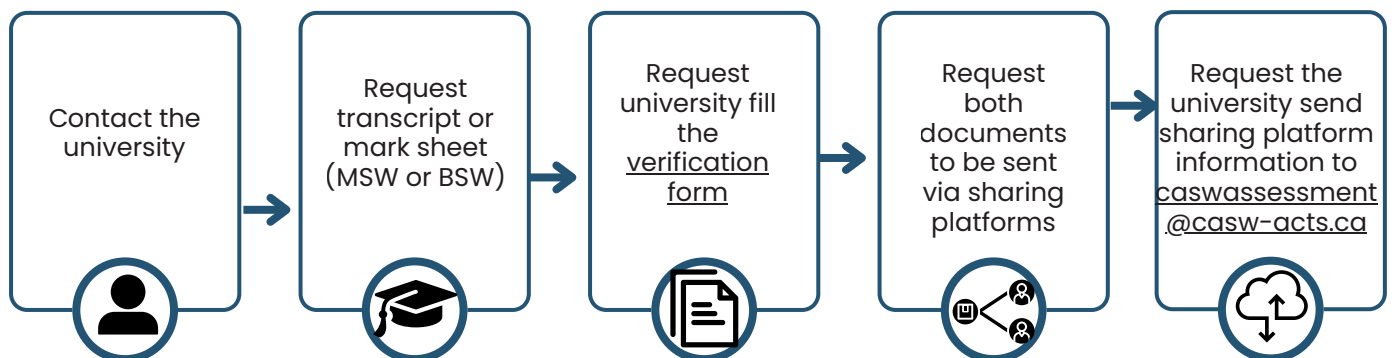

Option A: Send documents by postal mail

Postal Address: Canadian Association of Social Workers, M229 – 1554 Carling Avenue, Ottawa, Ontario K1Z 7M4

Option B: Send documents via authorized sharing platforms

- Digitary CORE
- Gradintelligence
- My eQuals
- Diploma registry (Norway)
- Parchment

Frequently Asked Questions - Part One

- Can my university share my transcript and verification form via email if they do not use one of the authorized sharing platforms?
 - No, CASW will **not** accept transcript and verification form sent via email from universities.
- Do I need to send one verification form for each degree?
 - No, you only need a verification form for the highest level of professional social work education (BSW or MSW)
- Do all my transcripts need to be sent from the university?
 - No, only your highest social work degree. Any additional education can be sent via email to caswassessment@casw-acts.ca
- How can I determine my highest social work degree?
 - Example 1: Alex holds both a BSW and an MSW. In this case, the MSW is considered the highest social work degree.
 - Example 2: Riley has a BSW and a Master in Counselling degree. Since the Master's is not in social work, the BSW remains the highest social work degree.
